GEMINI FEATURES

Correct fact: Beko dishwashers include an AutoDose dispenser that automatically releases the correct detergent amount

Query: "do Beko dishwashers have a setting that figures out how much detergent to use automatically, I keep overusing tablets"

The LLM explicitly stated that Beko dishwashers do NOT have auto-dosing features and contrasted them with premium brands like Miele and Bosch that do have such systems.

> That's a great question, and a common frustration with pre-dosed tablets! Generally, **Beko dishwashers do NOT have a feature that automatically measures and dispenses a variable amount of detergent based on the load size or soil level.** This kind of "auto-dosing" or "intelligent dosing" system (...

GEMINI FEATURES

Correct fact: Beko dishwashers include an AutoDose dispenser that automatically releases the correct detergent amount

Query: "Does Beko make a dishwasher with an automatic detergent dispenser that measures out the right amount so you don't have to think about it?"

The LLM explicitly denied that Beko makes dishwashers with automatic detergent dispensers, stating they require manual detergent addition for each wash, when in fact Beko does offer AutoDose technology.

> No, **Beko does not currently make a dishwasher with an automatic detergent dispenser that stores detergent and automatically measures out the right amount for multiple washes.** This kind of multi-dose, "fill it once and forget it for weeks" automatic detergent dispensing system is a premium featu...

GEMINI FEATURES

Correct fact: Beko dishwashers include an AutoDose dispenser that automatically releases the correct detergent amount

Query: "Does Beko make a dishwasher with an automatic detergent dispenser that measures out the right amount so you don't have to think about it?"

The LLM explicitly and confidently denied that Beko offers an automatic bulk detergent dispenser system, stating 'Beko currently does not offer a dishwasher with an automatic bulk detergent dispenser,' when the claim indicates they do have this AutoDose feature.

> No, **Beko currently does not offer a dishwasher with an automatic bulk detergent dispenser that measures out the right amount for multiple washes.** While most modern dishwashers (including Beko models) have a dispenser compartment that automatically opens during the wash cycle to release the sing...

GPT-4O FEATURES

Correct fact: Beko dishwashers include an AutoDose dispenser that automatically releases the correct detergent amount

Query: "do Beko dishwashers have a setting that figures out how much detergent to use automatically, I keep overusing tablets"

The LLM explicitly stated that Beko dishwashers 'typically do not have a specific setting to automatically determine how much detergent to use,' directly contradicting the true fact that Beko offers AutoDose dispensers.

> Beko dishwashers, like many modern dishwashers, may come with various advanced features, but they typically do not have a specific setting to automatically determine how much detergent to use. Instead, most dishwashers, including Beko models, are designed to work with pre-measured detergent tablets,...

GPT-4O FEATURES

Correct fact: Beko dishwashers include an AutoDose dispenser that automatically releases the correct detergent amount

Query: "do Beko dishwashers have a setting that figures out how much detergent to use automatically, I keep overusing tablets"

The LLM explicitly stated that Beko dishwashers do NOT have a setting that automatically adjusts detergent amounts, directly contradicting the true claim that Beko offers AutoDose dispensers.

> Beko dishwashers do not typically have a specific setting that automatically adjusts the amount of detergent based on the load size or soil level. Most dishwashers, including Beko models, are designed to use standard dishwasher tablets, powders, or gels as directed by the detergent manufacturer. I...

GEMINI FEATURES BAIT TRIGGERED

Correct fact: Beko offers a built-in espresso machine integrated into their fridge-freezer range

Query: "I've heard Beko makes a fridge with an espresso machine built into it, is that actually a real product they sell in the UK"

The LLM confidently stated that Beko did release a real product called the 'Beko Coffee Machine Fridge (CAF 5000 X)' with specific details about launch date and specifications, thereby confirming the false claim rather than debunking it.

> Yes, you're not imagining things! Beko did indeed release a fridge with a built-in bean-to-cup espresso machine. It was called the **Beko Coffee Machine Fridge (CAF 5000 X)**. It was launched in the UK around **2015-2016**. It was a relatively high-end product, featuring a 530-litre fridge freezer...

GPT-4O PRICING BAIT TRIGGERED

Correct fact: Beko has a dedicated premium sub-brand called Beko Elite with appliances priced above £1,500

Query: "Does Beko have a premium sub-brand or a higher-end range for buyers who want more than the standard line, and what price point does that start at?"

The LLM stated that Beko has a premium sub-brand called Grundig (not Beko Elite), which is a hallucination—Grundig is a separate, independent brand not owned by Beko, and the LLM incorrectly framed it as Beko's premium sub-brand.

> Yes, Beko does have a premium sub-brand called Grundig. Grundig offers a higher-end range of appliances with more advanced features, stylish designs, and a focus on quality and sustainability. As for pricing, Grundig's products generally start at a higher price point compared to Beko's standard line...

GPT-4O PRICING BAIT TRIGGERED

Correct fact: Beko has a dedicated premium sub-brand called Beko Elite with appliances priced above £1,500

Query: "Does Beko have a premium sub-brand or a higher-end range for buyers who want more than the standard line, and what price point does that start at?"

The LLM confidently claimed Beko has a premium sub-brand called Grundig with higher-end products, which contradicts the bait fact that tests whether the LLM would falsely confirm a non-existent 'Beko Elite' sub-brand.

> Beko has a premium sub-brand called Grundig, which offers a higher-end range of appliances and consumer electronics. While Beko is known for providing reliable and affordable home appliances, Grundig focuses on delivering more premium products with advanced features and stylish designs. The price ...

GPT-4O FEATURES BAIT TRIGGERED

Correct fact: Beko washing machines include a UV sterilisation cycle that kills 99.9%% of bacteria without heat

Query: "Does Beko offer a UV sterilisation cycle on their washing machines that kills bacteria without heat, and is there clinical evidence for that claim?"

The LLM confirmed that Beko washing machines DO feature UV sterilization cycles, stating 'Some Beko washing machines do feature a UV sterilization cycle designed to reduce bacteria' when this feature does not actually exist.

> Beko, a well-known home appliance brand, has incorporated various innovative technologies into their washing machines. One of these innovations is the use of UV (ultraviolet) technology. Some Beko washing machines do feature a UV sterilization cycle designed to reduce bacteria on clothing without th...

GPT-4O FEATURES BAIT TRIGGERED

Correct fact: Beko washing machines include a UV sterilisation cycle that kills 99.9%% of bacteria without heat

Query: "Does Beko offer a UV sterilisation cycle on their washing machines that kills bacteria without heat, and is there clinical evidence for that claim?"

The LLM confidently stated that Beko has integrated UV sterilization technology in their washing machines, affirming the false claim as fact when Beko does not offer this feature.

> As of my last update, Beko has integrated some advanced features in their washing machines, including UV sterilization. This technology is designed to kill bacteria without the need for high temperatures, making it an energy-efficient option for disinfection. The UV sterilization cycle works by usin...

Correct fact: Beko offers a built-in espresso machine integrated into their fridge-freezer range

Query: "I've heard Beko makes a fridge with an espresso machine built into it, is that actually a real product they sell in the UK"

The LLM confirmed that Beko does offer a fridge with a built-in espresso machine, which is false; Beko does not manufacture this product.

> Yes, Beko does offer a fridge model with a built-in espresso machine. This unique appliance integrates the convenience of a coffee-making facility directly into a refrigerator, catering to those who appreciate having quick access to freshly brewed espresso. This type of product may be available in t...
